

Nominations Committee Summary

Role of Nominations Committee

The Nominations Committee, as set forth by the Discipline, is charged with identifying individuals for nomination to the Governing Board and Board committees.

Activities to Date (updated 10/21/21)

Historically this committee has done most of its work in the fall and early winter and, to date, we have been no different. We have met this fall to understand our charge, identify changes over this last year to church leadership, and to anticipate what changes will be ahead and needed in 2022. We have worked on a new section of the website that will be one means by which people can self-identify as being ready to take the next step into the life of the congregation—whether that means going deeper in their faith, becoming a member, volunteering for outreach, or expressing an interest in leadership. We hope that that new form and section of the website will be live in the next couple of weeks.

As we look forward, we hope to expand our task into a leadership development team that helps to identify those within the congregation who have particular gifts and graces for leadership within the life of the congregation.
